

Teralba Opens for Training....But With Conditions

Thursday, 23 March 2017

TERALBA PARK IS OPEN FOR TRAINING TONIGHT

(THURSDAY 23 MARCH 2017)

BUT PLEASE READ THE FOLLOWING CONDITIONS CAREFULLY

Dear Mitchie FC Members, Coaches & Players

I have just personally inspected all fields with our head grounds person - Adam Hindley.

Some areas of all fields are still very wet and boggy - especially in the goal mouth areas. They are certainly not in a condition for games to be played but given that there are some big games this weekend and there has been no training to date this week, I have allowed training to proceed tonight under the following strict conditions:

No activity at all in the goal mouth area on any field. This includes, as a bare minimum, the entire area of the six yard box on all full sized fields.

Do not kick balls into the goal area as this will involve going into that area to retrieve the ball.

No shuttle runs or other type of fitness activity at all on any part of any field.

Ball work and positional work only.

Avoid areas that are obviously wet and boggy.

Use common sense

Realise that these are fields that you and other club members will have to use all year.

Training will be cancelled immediately for that team if any player or coach disregards this advice.

Many thanks for your understanding

Roger McIntosh

President

Mitchelton FC
