

Lighting Project

Friday, 12 June 2009

Earlier this year the committee advised the lighting project would commence in March. Regrettably this did not occur as the final approval for the project was not received from the State Government until 20 May 2009. After consultation with the contractors the committee is pleased to advise that work is due to commence on 22 June 2009. This date is dependent on the weather staying dry to allow heavy duty equipment access to the site. The work sites will have safety barriers erected to stop unauthorised entry. Coaches and parents are asked to assist by ensuring no children treat the work sites as "play areas".

Club members Greg Birnie from Hutchinson Builders and Paul Phillips from Watpac are both Contract Administrators for their respective companies and have volunteered to manage the project for the club. The club is appreciative and fortunate to have Greg and Paul's expertise available. There may be some disruption to training nights, however, this is expected to be minimal. When work commences, a weekly update will be posted on the club's website.
